TOPIC : USE CASE MODELING FOR
CAMPUS RECRUITMENT SYSTEM

CONTRIBUTORS : AAKASH K – 2018103502
 ADITHYA M – 2018103505

BASIC MODEL OVERVIEW:

ACTORS :

ACTOR	DESCRIPTION
STUDENT (primary actors)	A student can register himself. After registration, he will be directed to his homepage. Here he can update his profile, see notices and see the examination details and all.
ADMIN (secondary actors)	The secondary actor who maintains the students and employer details and acts as the intermediate between student and the company
EMPLOYER (secondary actors)	A company can register itself, conduct online examination, approve or disapprove candidates attending

	examination and provides results about the selected candidates.
--	---

SOME IDENTIFIED USE CASES:

LOGIN: The process by which the both primary and secondary actors can log in to their registered account to perform required actions

EDIT PROFILE: The students can upload their details which are required by the companies like AREA OF EXPERTISE , RESUME , CPGA etc which can be viewed by the companies to send notices. A student can edit his profile at any point of time to remove faulty information or change in his data uploaded.

CHECK NOTICE: The primary actors are able to check the notices which are sent by the companies that matches their profile for the job.

REGISTER JOB: A student , after receiving the notice from the company can register for the vacancy position and can follow the set of instructions given by the employer.

UPDATE : If any faulty information is recorded, the student can edit/update his information in the system.

VIEW INFORMATION: The secondary actors (ADMIN , EMPLOYER) can view the details mentioned by the students in their profile.

SHORTLIST CANDIDATES: The Admin can shortlist profile which are submitted by the students by removing profiles which don't meet to the requirements of the respective employer.

APTITUDE TEST: A series of tests which are conducted by the company through the software within a limited timeframe and the validation is done automatically.

PUBLISH RESULTS: After the validation of the results , the students are shortlisted according to the pre conditions mentioned by the company. These shortlisted students can attend the interviews and follow the instruction by the company further.

MANAGE PLACEMENT : The Admin manages the overall placement process, anything that doesn't pertain to the rules is seen through.

INTERVIEW : The employer conducts interview to the students who have cleared the aptitude test.

FULLY DRESSED USE CASES:
