#### **SEQUENCE DIAGRAMS:**

Sequence Diagrams are interaction diagrams that detail how operations are carried out. They capture the interaction between objects in the context of a collaboration. Sequence Diagrams are time focus and they show the order of the interaction visually by using the vertical axis of the diagram to represent time what messages are sent and when.

#### **Purpose of Sequence Diagrams :**

- Model high-level interaction between active objects in a system
- Model the interaction between object instances within a collaboration that realizes a use case
- Model the interaction between objects within a collaboration that realizes an operation
- Either model generic interactions (showing all possible paths through the interaction) or specific instances of a interaction (showing just one path through the interaction)

#### **SOME IDENTIFIED SCENARIO's and Their System Sequence Diagram's:**

- INTERACTION's :
  - Profile managment
  - Search Jobs
  - Apply for Jobs
  - Student and Company Management
  - Placement Process.

## SEQUENCE DIAGRAM FOR PROFILE MANAGMENT :

*Actors involved :*
